Tutorial 1
User Interface & Application Controller

Working with Multiple Controls

Task 1: You are required to create an interface as shown in Figure 1.
Object: Label[Name,Massage], textbox[your name, word hello world], radiobutton[color selection and picture selection], picturebox[hello world], button[display,clear,exit]

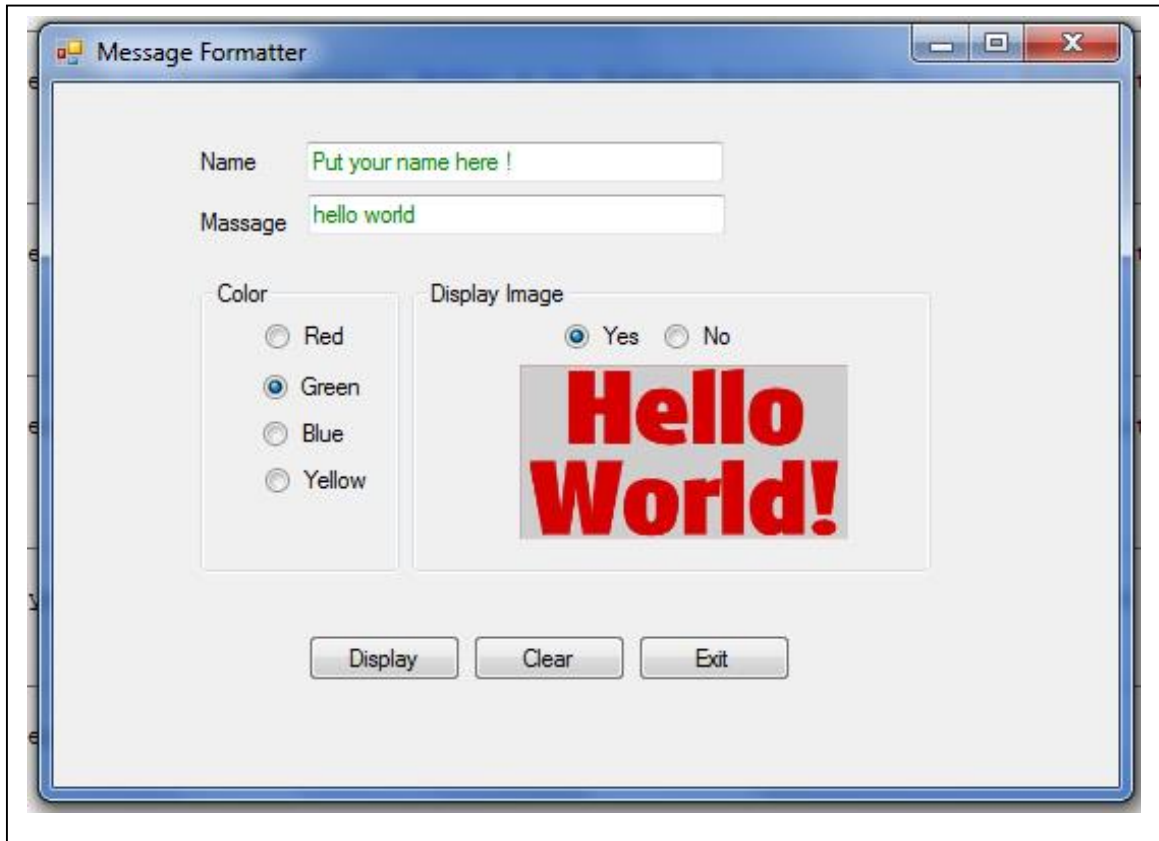

Figure 1

(10 Marks)

Task 2: You are required to write down all the coding for each control that you use in Task 1.

Example:

Button Close:	Me.Close()

Display Button: [2M]

Clear Button: [2M]

Color Selection: [4M]

Image Selection/setting [2M]

(10 Marks)
