LEARNING ACTIVITY

1. Warehouse process is from replenishment to dispatch. This process will differ in terms of number of workers, equipment as well as the warehouse layout. As a representative from one of the third party Logistics Companies, you are required to prepare a report to your potential customer. Your report requires the following information to be included.
 - a. List primary activities of warehouse.
 - b. Briefly explain warehouse process and support with simple diagram.

2. With the use of a diagram illustrate:
 - a) Break-bulk
 - b) Warehouse consolidation
 - c) Cross docking
