THE CONCEPT OF IBADAH IN ISLAM

INTRODUCTION

- Ibadah is the fundamental in Islam where it is the second pillar after aqidah. This is because ibadah is the proof of the truthfulness of one's aqidah.

DEFINITION OF IBADAH

- Ibadah means one's submission as a slave to the creator, Allah, by humility, obedience and loyalty towards His orders (**involves instructions and prohibitions**). It also means to perform things He likes and to abandon things He dislikes.

THE PLACE OF IBADAH IN ISLAM

- It is the purpose for Allah s.w.t in making human beings and also all the messages prophets conveyed.

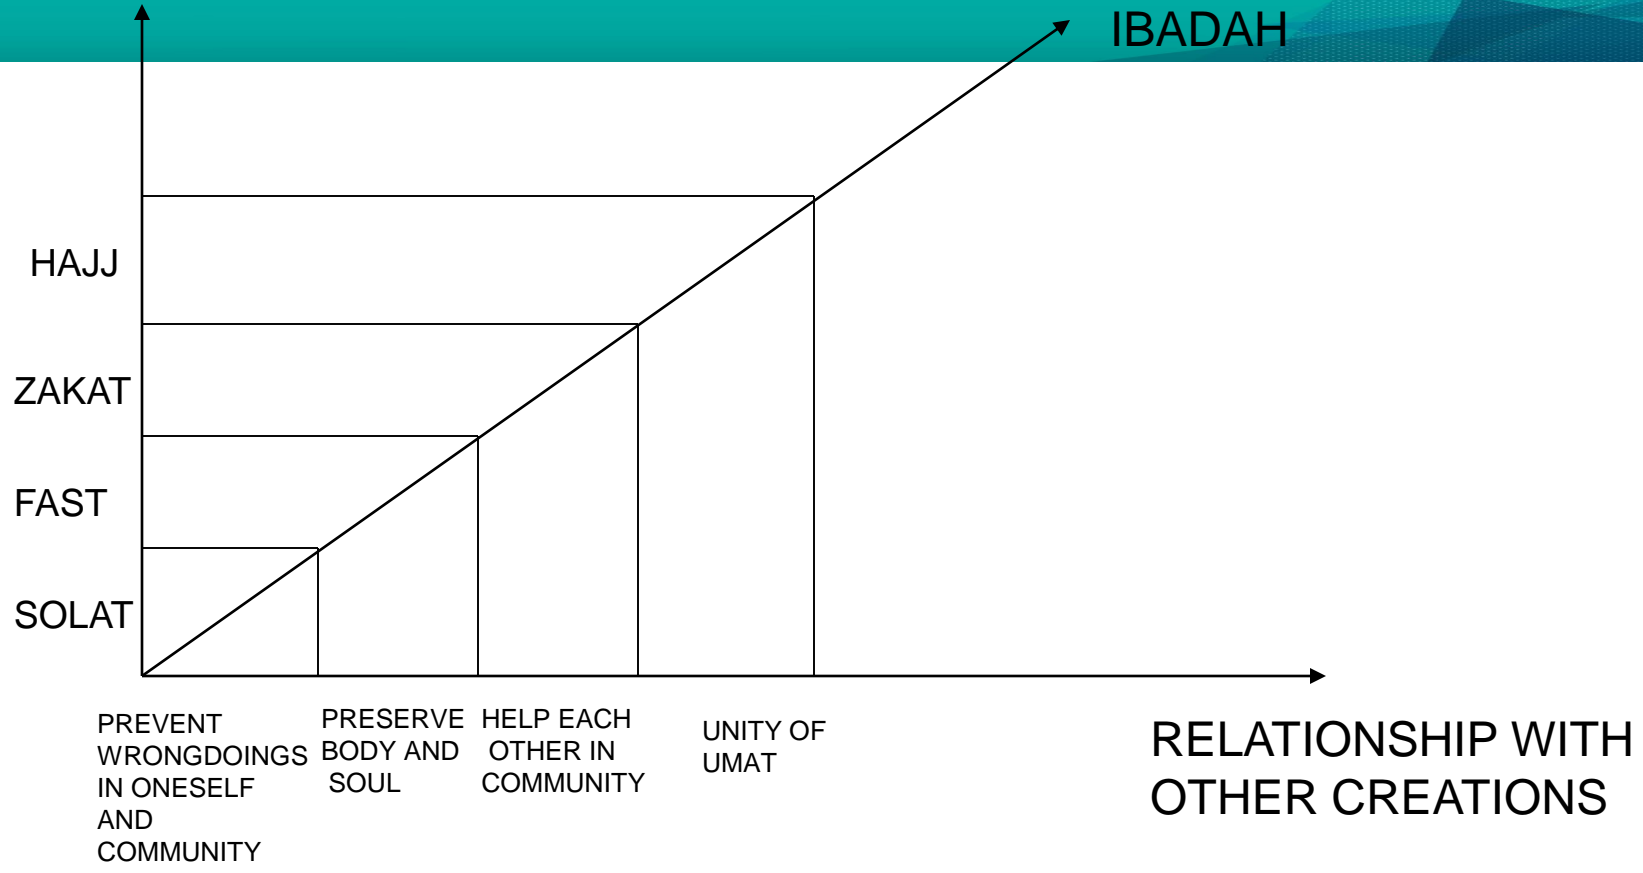

REALITY OF IBADAH

- The reality of ibadah is the **submission and humility of the element of soul (roh) towards its God** with the feeling of being flawed in front of its God, submission towards Him, loyal towards His orders and does not breach the borders He set. **The external actions by a person in the context of Ibadah are merely translation or reaction shown by the soul / roh.**
