UHS 2021 TREND OF ENGINEERING SYSTEM EVOLUTION

by
ANITA ABDUL RANI (PHD)
CMLHS

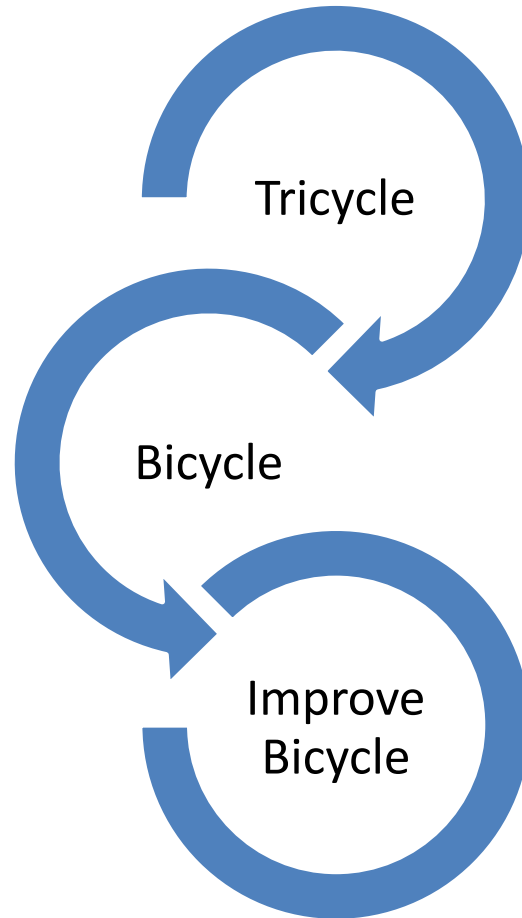

Chapter Description

- Expected Outcomes
 - Students will be able to understand TESE or Trend of Engineering System Evolution

Evolution of Bicycle

Stage 1

- First application
- Not refined
- New

Stage 2

- Value improve
- Volume growth
- Expand new application

Stage 3

- Development slows
- Production volume is stable
- Contradiction increase

Stage 4

- Decline functionality and revenue
- Production drops
- More effective

Conclusion of The Chapter

- In TESE there are four stage of analysis
- Each Stage shows the difference in Trend of Engineering System
