Class Activity

- There are EIGHT (8) risk types in project risk management. The risk types are as follows:-
 - Scope
 - Technology
 - Legal
 - Schedule
 - Procurement
 - Human Resource
 - Cost/Budget
 - Environment

Class Activity

- Prepare a video scenario relating to the risk types. Each member must participate in the video.
- Explain each type of risk with examples. Make sure you and your friends can understand. The following topics should be covered in the video scenario:-
 - Definition and explanation
 - Types
 - Real example of the risk type
