# Assignment

For this assignment, students are required to choose a failed project, and implement a risk management plan on the chosen project. Students are required to study the risks from project initiation to project closing. The questions are as follows:-

- Explain in detail on the project chosen. Provide information such as parties involved in the project, project detail, and etc.
- Why was the project a failed project? Explain on the loss of project.
- Provide risk management plan for each phase of the project, from project initiation to project closing.
- From your point of view, what are the factors that contributed to the risks involved in the project which resulted to the failure of the project?
- What action should be taken to prevent the failure of the project?
- From your point of view, how to ensure the implementation of risk management on projects?
