# CHAPTER 2

## Overview of Data Visualization

EDITOR:

AZIMAN BIN ABDULLAH

Faculty of Computer Systems & Software Engineering  
[aziman@ump.edu.my](mailto:aziman@ump.edu.my)

OER Data Visualization by Aziman Abdullah (editor) work is under licensed [Creative Commons Attribution-Non Commercial-No Derivatives 4.0 International License](https://creativecommons.org/licenses/by-nc-nd/4.0/).

# Learning Outcomes

This chapter aims for learner to be able to:-

1. Characterize the sciences of data visualization.
2. Identify skillset required for data visualization.
3. Expose with standard HTML5 online visualization.

OER Data Visualization by Aziman Abdullah (editor) work is under licensed [Creative Commons Attribution-Non Commercial-No Derivatives 4.0 International License](https://creativecommons.org/licenses/by-nc-nd/4.0/).

# Table of Content

- Principles of data visualization
- Graphing and visualization algorithms
- Scalability concerns
- Introduction to standard visualization web APIs

OER Data Visualization by Aziman Abdullah (editor) work is under licensed [Creative Commons Attribution-Non Commercial-No Derivatives 4.0 International License](https://creativecommons.org/licenses/by-nc-nd/4.0/).

# Sciences of Data Visualization

Items	Amount (MYR)
1 Study fee	1900
2 Food	600
3 Mobile phone	500
4 Books	300
5 Printing	200

ا ب ت  
 ABC 象形字  
 123 आ ई ऊ

≠ #

Data Science

Decision Science

# Data Science

*... a "concept to unify statistics, data analysis and their related methods" in order to "understand and analyze actual phenomena" with data.*

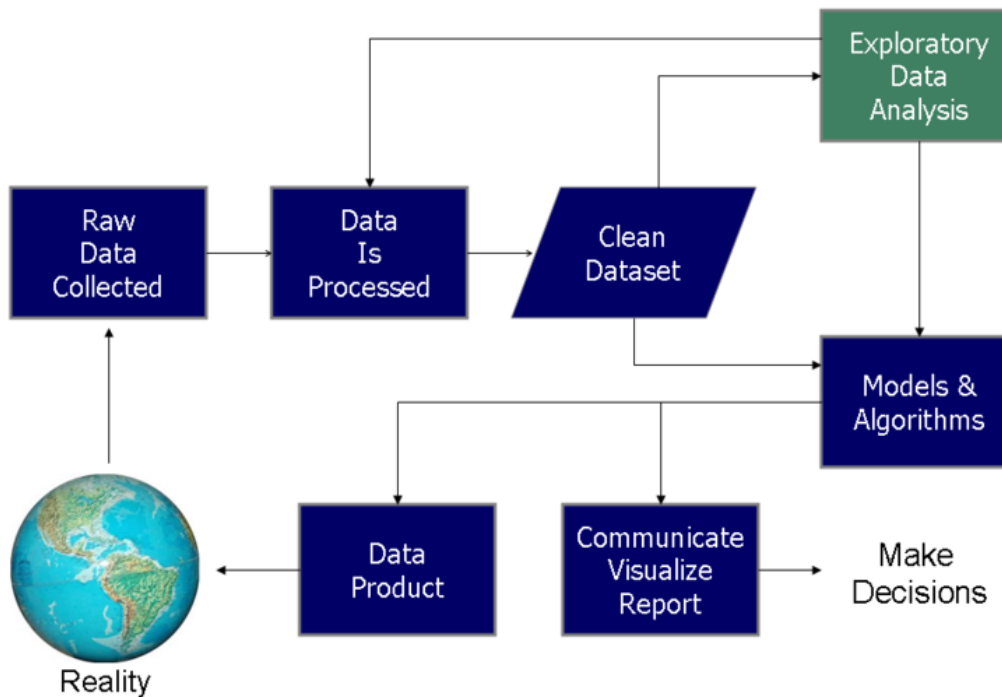

Hayashi C. (1998)

# Data Science Skillsets

According to [Quora \(2017\)](#), top five skills for data scientist:-

Programming

Quantitative  
analysis

Product  
intuition

Communication

Teamwork

# Decision Science

- Making decisions is a needs for everybody at all level – personal, organizational, regional, national and global.
- Increasing research interest in decision science based on SCOPUS database.

# Visualization Web API's

- With HTML5, it is now possible to perform drawing of graphics in the web without require any additional software plug-ins.
- List of web APIs for data visualization:-
  - Google charts
  - D3.js

# Google Chart API

- URL : <https://developers.google.com/chart/>

Sankey diagram, available in Google Chart API

# Summary

- Data visualization involve the interdisciplinary of data (computer & technology) and cognitive (thinking) sciences.
- Collaborative wisdom through web bring greater impact on data visualization.
