

## Answer

a)

*Marking guide*

*2 marks for each correct distance from each side  
2 marks x 4 sides = 8 marks*

*2 marks for the rectangle  
Total = 8 marks + 2 marks = 10 marks*

b)

```
//crossing lines

context.moveTo(50,50); // 2 marks with exact coordinate
context.lineTo(250,150); // 2 marks with exact coordinate
context.stroke(); // 1 mark

context.moveTo(50,150); // 2 marks with exact coordinate
context.lineTo(250,50); // 2 marks with exact coordinate
context.stroke(); // 1 mark

//Total marks = 10 marks
```
