

Exercise 1

1. From the C program below, identify the (i) comments (ii) header, and (iii) escape character and its function.
2. Write the output printed by the C program.

```
/*This program calculates 3+2=5*/  
  
#include <stdio.h>  
  
int main () {  
  
    printf("3+2 = %d\\a", 3+2);  
  
    return 0;  
}
```
